

NATIONAL FLOOD PLAIN INSURANCE REQUIREMENTS

There are 104 New Mexico communities that participate in the National Flood Insurance Program. If you are proposing construction or development in one of these communities, a permit is required before work begins within any FEMA mapped Special Flood Hazard Area. Permits are required to ensure that the proposed construction or development meets the requirements of the National Flood Insurance Program and the community's floodplain management ordinance.

Please click on the link below to review the list of 104 communities that participate in the National Flood Insurance Program and find the floodplain management point of contact for your community. (The link will take the user to the Floodplain Page of the New Mexico Department of Homeland Security and Emergency Management. Click on 'Community Floodplain Contact List')
